# TONOPAH DAILY BONANZA

Today's Silver  
Quotation, 58 3-8

VOL. XI. NO. 120

TONOPAH, NEVADA, FRIDAY EVENING, MARCH 15, 1912.

PRICE 10 CENTS.

## MIZPAH EXTENSION STRIKES A 12 FOOT LEDGE TONOPAH MINING DECLARES A DIVIDEND

### HIGH GRADE ORE FOUND IN THE WINZE.

One of the most important strikes made during the past year is that which occurred in the Mizpah Extension late yesterday. It is known that the ledge, which was struck in a winze, started from the 1000-foot level, is twelve feet in width and carries some exceptionally high values and the entire body thus far encountered is of a grade that will yield a nice profit for the stockholders. Those who have been fortunate enough to see the ore declare that some of it will run up into the hundreds, while all of the samples show good quantities of ruby silver.

It is understood that the values

so far encountered run from \$10 a ton up into figures, which place it at once among the high-grade properties.

This strike means the addition of several years to the life of the camp and proves the contention of the Montana officials that the ledge would be struck in the Mizpah Extension at about the depth where it was found.

The officials of the company, while admitting that the strike had been made, said that they did not desire to make any of the details known at this early date, but wanted to see what a few days more work would disclose.

### WARDEN AND GUARD KILLED BY CONVICTS

LINCOLN, Neb., March 15.—Warden James Delahanty, deputy Warden Charles Wagoner, and Guard A. G. Hellman, of the state penitentiary were killed by convicts in a riot here yesterday. Keeper Doody was slightly wounded. Convicts overpowered the guard, and seized his revolver and attacked the officers.

A squad of police and a company of the National Guard was ordered out. The riot started at 2 o'clock and was quelled in an hour.

### DARROW TALKS IN MACHINE

CONVERSATIONS OF DARROW NOW IN HANDS OF THE PROSECUTION.

LOS ANGELES, March 15.—Probably a dozen conversations between Clarence S. Darrow, former chief counsel of the McNamara, and John Harrington, a Chicago attorney associated with him, were taken down by means of telephonic devices, according to District Attorney John D. Fredericks.

The conversations, which took place in Harrington's room in a local hotel, all occurred since the indictment of Darrow for alleged jury bribery, said the district attorney. Several days ago it was announced by the district attorney's office that Harrington would be a witness for the state when the trial of Darrow is called.

District Attorney Fredericks declined to discuss the evidence obtained, other than to say it was valuable. He stated also that Harrington had secured a room at the hotel a month ago under an assumed name. The instrument was hidden behind a picture in the room and stenographers in an adjoining room recorded the conversations, according to the prosecutor.

Attorney Darrow refused last evening to discuss the matter.

### JURY DISAGREES.

The jury hearing the case of F. M. Williams of Winnemucca, who is charged with violating the anti-rumbling law, failed to reach a verdict, and it is possible that the case will die a natural death. The trouble with the law is that it makes a felony where it should be a misdemeanor. Until the law is rectified acquittals will continue and the counties be forced to foot the bills.

### ANOTHER BROKEN RAIL. ANOTHER 25 INJURED

DUNKERTON, Ia., March 15.—Twenty-five persons were injured, thirteen seriously, one probably fatally, the wreck of the passenger train of the Chicago & Great Western, near here yesterday. A broken rail on a curve was the cause.

### CANTON SCENE OF RIOTING AND BLOODSHED

HONG KONG, March 15.—Four gunboats have been dispatched to Canton. Eye-witnesses describe the scenes at Canton as terrible. A thousand persons have been killed. The British gunboat Kinsha has been damaged by shells and has been compelled to shift anchorage. The liner Cleveland wires that the visit to Canton has been abandoned.

### MEXICAN BRIGANDS STEALING AMERICAN CATTLE

MARFA, Texas, March 15.—Mexicans raided an American ranch near the Presidio Tuesday night and got away with fifteen cattle, after a running fight with Wynn Killgore, deputy sheriff. The band took the cattle across the Rio Grande and all escaped.

### NEW CODE TO BE READY IN ABOUT THREE WEEKS

CARSON CITY, Nev., March 15.—The long-awaited second volume of the new Nevada code will be issued from the state printing office in about three weeks. The code commission, consisting of the three supreme justices, this afternoon will submit the index to the state printer.

### SUFFRAGETTES PAY VISIT TO THE NATIONAL CAPITOL

WASHINGTON, D. C., March 15.—Woman suffrage leaders invaded the capitol yesterday and presented their arguments to congress in advocacy of a constitutional amendment for the enfranchisement of women. Hearings were given the women by sub-committees of the senate and house judiciary.

Mrs. Laidlaw, in speaking, assured the committee the women were not militant, but merely "insistent and persistent."

Probably the most determined of the speaker was Miss Lenora O'Reilly, of New York, representing the wage earners. "We don't want to bluff you," she said. "We want the ballot for our own good. We don't get half enough to live on and yet we have to keep decent. You men make laws so when you do wrong you get off, but when women do wrong, we go to the gutter or prison. We have heard tommyrot given us by legislators. We know the game. You men want this nation to get rich, but you don't know that riches lie in human lives."

Miss Jane Addams, of Chicago, argued that one million women will have a vote in the coming campaign for president. She declared the care of the child and its protection was rapidly becoming more a matter of government control and that woman, the mother, should have a voice in that government.

### WILL LECTURE ON ACCIDENT PREVENTION

R. J. Highland, the insurance representative, has arranged with Mr. C. M. Hansen, manager of the Accident Prevention department of the Pacific Surety company of San Francisco, to deliver a lecture here this Friday evening, March 15th, at 8 p. m., for the benefit of mine operators and persons holding positions of authority with them, such as general foreman, members of the engineering staff, company attorneys, etc., all of such persons connected with your company being cordially invited. The lecture will be given in the room in the Tonopah block, on the corner of Brongher and Central street, formerly occupied by Rotholz Brothers.

Mr. Hansen's lecture will be on the subject of "Workman's Compensation" from an economic as well as a sociologic standpoint. His company is approaching the employers' liability situation from an entire new angle, their plan being to co-operate with employers, in an effort to minimize the accident hazard in their properties, and to promptly pay an employee a fair compensation when he is injured, avoiding anything which tends toward litigation and doing everything to maintain friendly and pleasant relations between the employer and employee.

There is probably no person in the United States better informed on this subject than Mr. Hansen. Himself a mining manager with a large experience in European countries, acquired prior to his advent in the United States, about ten years ago. He is familiar with every phase of the accident situation. He has specialized on the subject of accident prevention and his lecture will be illustrated by about 100 stereoscopic views. He is in great demand by the engineering department of the western universities, appearing before them frequently, and regardless of your present views on the subject of employers' liability insurance we feel confident that you will find his ideas sufficiently interesting to justify the time spent in listening to them. All are cordially invited to the lecture tonight.

### REFEREE WOULD NOT STAND FOR CROOKED FIGHT

"ONE-ROUND" HOGAN, AFTER BEING WARNED, STOPPED BY REFEREE.

NEW YORK, March 15.—"One-Round" Hogan of California was disqualified in the first round of a fight with Leach Cross, a local lightweight, by Referee Charley White for hitting in the breakaways.

Up to the time of Hogan's disqualification, which came after two minutes of fighting, Cross had punished Hogan, staggering him with a vicious right swing and causing him to hold with a series of smashes to the face. Cross was first to offend by hitting in the breakaways and White cautioned him. Immediately afterward Hogan hit Cross over the referee's shoulder and was in turn cautioned. Then Hogan hit Cross five times in a breakaway and the referee disqualified him. The house was in an uproar immediately. Hogan leaped from the ring and White climbed back to announce that under the Fawcett law a boxer must break clean. The spectators were orderly.

### WILL PAY CLOSE ATTENTION TO THE POTASH DRILLING

Victor Barnet, president of the Railroad Valley Saline company, accompanied by H. D. Bardsley, left for the potash workings this afternoon to inspect the drilling operations.

### IONE DISTRICT IS THE SCENE OF MUCH ACTIVITY

The mines at Ione are being developed as rapidly as possible and this summer will see many of the properties in the producing class, according to C. K. Jarvis, who is interested with Tom Murphy and Jas. Forman in the King Solomon property.

Mr. Jarvis says the Midas Gold Mining and Milling company is working steadily and have been taking out an excellent quality of milling ore, as well as, having uncovered a nice body of ore that can be shipped at a profit. There are no vacant houses in the camp and a general air of prosperity pervades the district. A petition for a mail route from the camp to Luning is being circulated and it is suggested that the commissioners, as soon as the frost is out of the ground, make the needed improvements on the roads.

### GAS PLANT READY FOR BUSINESS BY NEXT WEEK

Manager O'Connors of the Nevada Gas company informs a Bonanza scribe that work is progressing rapidly in the rebuilding of the gas plant, destroyed by the recent fire and that he expects to resume operations the latter part of next week. A large force of mechanics are employed in reconstructing the plant. Mr. O'Connors deserves much credit in the able manner in which he has supervised the work of rebuilding.

### ONE KILLED; ONE FATALLY HURT IN FIRE IN OHIO

HAMILTON, Ohio, March 15.—One fireman killed, one fatally injured, and several others are missing in the fire which partly destroyed the Butler county court-house yesterday afternoon. The men were buried when the clock tower crashed into the foyer.

### CONTENTS OF MAIL BAGS FOUND BY SMALL BOY

LARD CAN RECIPIENT OF MAIL ADDRESSED TO THE BANK OF SPARKS.

RENO, Nev., March 15.—An old lard can has been made the recipient of a number of letters addressed to the Bank of Sparks. The cache was discovered yesterday near the Lincoln Park office in the eastern portion of the city. A small boy uncovered the find. He is the son of Engineer Downey, who reported the matter to the bank, with the result that an investigation was made and a considerable number of letters were found. The envelopes had all been torn open, but it does not seem as though their contents were disturbed, at least nothing that might have been within the folders is discovered.

It is believed that three robberies have been committed, extending over several months, remittances and important letters having failed to arrive since some time in the early part of December.

The mail box in front of the bank is believed to be the only one that has been tampered with, as there are no reports of any other missing mail. What the motive of the robber was cannot be learned, as he failed to take even paper that might have proven to be negotiable. It is believed that the robber was looking for paper money,

### NICE PRESENT FOR THE STOCKHOLDERS.

"Tonopah Mining Company of Nevada declares twenty-five cent dividend, also extra one of fifteen cents," such was, in part, the message that flashed from city to city last night, bringing happiness and cheer to many homes; giving encouragement to many who are interested in mining. This news, however, caused no comment here, for it is the regular thing for the company to do, but when one stops to consider the amount of money that this company has paid out in dividends, to say nothing of the money paid out for wages, supplies, transportation, treatment, etc., the showing is most remarkable.

The company, which was incorporated for one million shares, has up to, and including January 20, 1912, paid to its stockholders \$8,450,000 and with the dividend just declared for April, it will bring the total up to \$8,850,000.

Not only has this property demonstrated the value of Tonopah as a mineral section, but it has caused many to become interested in mining, and its effect has been for the benefit of many. With ore reserves of the size and richness of those within the confines of the acreage owned by the company, with the skillful and economical management of affairs, the company will, no doubt, be in a position to continue paying dividends of like size for some time to come.

Just as the word came that the company had paid their dividend, news came from the Mizpah Extension that ore had been encountered which proved that the property was now to be classed as one of the camp's producers. It is stated that the ore which comes from the Lilly Belle vein is exceedingly rich. It is not possible to state the width of the ore body, but experts are sanguine that it will be of large proportions.

### JUDGE AND HIS CLERK KILLED AND JURORS WOUNDED

HILLSVILLE, Va., March 15.—Just as Judge Thornton Massey, of Carroll county court, sentenced Floyd Allen yesterday to one year in prison for aiding in the escape of a prisoner, two of Allen's brothers and several of their friends opened fire with revolvers. The judge fell dead at the first volley.

Then the commonwealth's attorney, William Foster, was killed, also Peter Goad, clerk of the court. Several of the jurors in the case were wounded, one probably fatally. The Allens, including the prisoner, with their friends, backed out of the court, holding the crowd at bay with revolvers, and fled to the mountains on horseback.

A posse pursued and it is reported that one mountaineer was wounded in a pitched battle. Another report says that seventeen are in a barn and prepared to resist capture.

### ATTEMPT MADE TO ASSASSINATE KING OF ITALY

ROME, March 15.—An attempt to assassinate King Victor was made yesterday morning, as with Queen Helena he was going from the palace to the Pantheon to participate in the annual memorial service in honor of the late King Humbert. The royal carriage, escorted by cuirassiers, was passing along Via Lata when three shots were fired by a man in the crowd. One officer of the bodyguard fell, dangerously wounded. The king was untouched.

The people seized the man who fired the shots and attempted to lynch him. When rescued by the police he gave the name of Antonio Dalba, aged 21, a stonemason.

Dalba described himself as an "individualist assassin," and said he made the attempt on the king's life as a protest against the organization of society. He is not believed to be connected with any plot or organization. He rode on a bicycle to the place of the attempted assassination. When the shots rang out the queen threw her arms around the king, who comforted her, saying: "It is nothing." The royal procession proceeded to the Pantheon and after mass returned to the Quirinal by the same route.

which could have been easily discussed of, and ignored paper which might have resulted in his detection if he attempted to negotiate it.

### ANTI-BLACK-LIST LAW GETS R. R. MEN IN TROUBLE

CROOKSTON, Minn., March 15.—The struggle between the Great Northern railroad and its carmen reached an acute stage with the arrest of Superintendent Knebel and Master Mechanic W. J. Smith on complaint of J. H. Walter, the charge being that they discharged the carmen because the men would not quit the union. This is a violation of the state anti-blacklist law.

### LUMBER COMPANY SECURES A VAST TIMBER TRACT

GOVERNMENT ACCEPTS BID BY LOCAL CONCERN FOR MUCH LUMBER.

RENO, Nev., March 15.—The bid of the Verdi Lumber company for 75,000,000 feet of lumber in the Tahoe national forest has been accepted by the government forest service. This is but one of the many acquisitions recently made by this company, which has now sufficient forest to keep its mill and box factory in operation for twenty years longer.

The forest reserve timber must be cut off within the next ten years, according to the terms of the bid. A railroad will be extended from the terminus of the company's present track into the new forests.

### CONFESSED TRAIN ROBBER SURRENDERS

FERGUS FALLS, Minn., March 14.—S. L. Copeland, from whom a letter was received Saturday last from South Pasadena, Cal., confessing that he had held up and robbed a train in this country in 1895, instead of George Lyon, who was convicted and then committed suicide, walked into the county attorney's office yesterday and surrendered. Copeland says he was converted at a revival meeting recently. He also confessed to holding up a bank in Moorhead, Minn.

### OROZCO WILL NOT START UNTIL ROAD IS CLEARED

CHIHUAHUA, Mex., March 15.—Pasqual Orozco will not leave for the south until his advance guard has taken Juarez, which they expect to capture as easily as they took Santa Rosalia, when the federal garrison capitulated. Orozco is getting many rifles and other arms for recruits from the result of the order to natives to bring them in or be severely punished.
